

FORGE YOUR

Future in Steel

**EXPRESS YOUR
INTEREST TODAY!**

WHAT IS A FABRICATOR?

Fabricators — also known as boilermakers or welders — cut, shape, weld, and assemble metal structures and components.

From structures to production and mining equipment, pressure vessels — you'll build the heavy-duty steelwork that holds industries together.

WHY CHOOSE A FABRICATION APPRENTICESHIP?

- Strong and Skilled Trade - Welding and fabrication skills are in high demand nationwide.
- Create with Your Hands - Turn raw steel into a range of real-world equipment.
- Earn while you learn - Paid, full-time apprenticeship with expert mentors and practical training
- Nationally recognised qualification - Your skills will be in demand across the country - and beyond!
- Pathways to specialisation - Progress to pipe welding, coded welding, structural steel or supervisor.
- Work in Any Sector - Mining, construction, marine, infrastructure, transport - the possibilities are wide.

START YOUR JOURNEY TODAY!!

- Must be 16+ years old in the first 12 months of your apprenticeship
- P1 or higher driver's licence

APPRENTICESHIP DURATION

4 years (full-time), with on-the-job training and formal learning through a registered training provider.

“There’s pride in steel — we take raw material and make something that lasts for decades.”

— Dave K., Fabricator
